

With Over 30 Years Of Overseas Experience - We Make It Easy!

Shafiroff Racing has the most competitive International Air Freight Shipping Rates in the industry. Every engine is carefully shrink wrapped, palletized and crated in an ISPM 15 compliant container. All of the necessary customs documentation is filled out and forwarded to the receiving air terminal. The pricing below includes shipping, handling and full value insurance.

Typical transit time is between 3 - 5 days, all you have to do is wait for the phone call that your engine has arrived and they will load it into your vehicle. If you prefer that it be shipped to your door, mention that and they can arrange it for you (additional charges may apply).

If your country has adopted a Free Trade Agreement with the United States (i.e. Australia), the Import Duty is \$0! (Local taxes/GST still apply.)

Crate Dimensions (inches): Shortblock: 28 x 28 x 46
Complete Engine: 40 x 39 x 45

Our crates have additional, limited space available. If you are purchasing "mail order parts" to complete your project, take advantage and have them drop shipped here so we can include them with your engine. Just make sure that a copy of the invoice is included. **No Extra Charge! (When Shipped Direct)***

** Up to 75lb additional weight allowed. Parts must fit within the available space of the engine crate. Exceeding the 75lb. maximum weight or size limitation may incur slight additional freight charges.*

Economical Sea Freight Available To Certain Ports - Call For Details (4 - 6 Week Delivery Time)
